

## **Attention Village of Dorchester, Water Utility Customers:**

**The Village of Dorchester is now  
requesting ALL water customers to  
run your water continuously, 24**

**hours a day, 7 days a week, effective IMMEDIATELY. This effort is being made to  
prevent water pipes from freezing up.**

**It is recommended that you run one faucet anywhere in your home with a  
continuous stream of water, approximately the size of a pencil.**

**Extreme cold weather has pushed frost depths past 7 feet in paved areas and  
where snow has been removed. This is very near the depth of water mains and  
water service laterals and is the likely cause of freeze ups that have occurred and  
would likely occur without this action. The City will inform you when you should  
stop running your water.**

**Customer water bills will be adjusted for the water usage to prevent freeze ups  
on the basis of historic usage as required by the Public Service Commission of  
Wisconsin.**

**For more information, questions or concerns, please call the Village of  
Dorchester at 715-654-5006.**
